FLASHCARD FUN- 10 MARKS

Flashcard Fun is a fantastic activity that helps students remember Hindi vowels (स्वर) and consonants (व्यंजन) in an engaging way. Here's a detailed explanation:

How to Create and Use Flashcards

Materials Needed:

- ✓ Colorful chart paper or thick cardboard
- ✓ Sketch pens, colored pencils
- ✓ Picture cutouts (from magazines/newspapers) or hand-drawn illustrations
- ✓ Glue, scissors
- ✓ Transparent covers (for preservation)

Step 1: Prepare the Flashcards

- ♦ Create separate cards for each vowel (अ, आ, इ, ई...) and consonant (क, ख, ग, घ...minimum 10)
- ♦ On one side, write the letter in a large, clear font.
- ♦ On the other side, draw or paste a picture of a word that starts with that letter.

Step 2: Make Flashcards Attractive

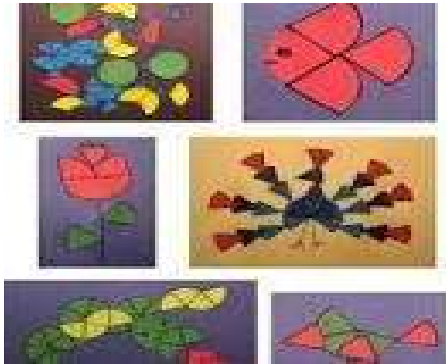

- 🎨 Decorate each card—use colors, add pictures, and write the letters in different styles...
 - Learning Outcomes- Visual Learning: Pictures help reinforce letter recognition.
 - Interactive Practice: Learning through games makes it fun.

Mathematics:

Design beautiful pictures (any five) using cutouts of different fractions.

Learning objective: To learn and explore different types of fractions.

Learning outcome: The above activity encourages students to identify Types of fractions.

SCIENCE HOLIDAY HOMEWORK ON WASTE WATER STORY

Activity 1: Make Your Own Mini Wastewater Filter (3M)

Materials Needed:

- A plastic bottle (cut in half)
- Sand
- Charcoal (optional)
- Cotton or cloth
- Gravel
- Dirty water (you can mix water with tea leaves, paper bits, etc.)

Steps:

1. Invert the top half of the bottle and place it like a funnel in the bottom half.
2. Layer cotton/cloth, then charcoal, sand, and gravel inside the funnel.
3. Pour the dirty water and observe how it gets filtered.
4. Record your observations in a table.

Write a few lines: (1M)

- What did you observe?
- Was the water clean after filtration?

- What do you think is still in the water?

Activity 2: Wastewater Detective (3M)

 Survey your home or neighbourhood:

- List sources of wastewater (e.g., kitchen, bathroom, washing area).
- Ask elders: “Where does the water go after it goes down the drain?”
- Write about what you found. Take photos (if allowed) and stick them in your file.

Bonus: Make a “Clean Water Pledge” (2M)

Write 5 things you’ll do to avoid water pollution. Example:

- I will never throw oil or chemicals down the sink.
- I will remind others to save and reuse water.

Submission: Presentation Neatness and Punctuality (1M)

Organize all activities in a decorated file or scrapbook with a Cover page. Use drawings, labels, and captions. Don’t forget to write your name, class, and roll number.

Social Science:

Make a travel brochure, illustrate historical place describing the location, ways to reach their weather, best time to visit, flora and fauna, food, culture etc.

It should be hand written and draw or paste pictures related to the place.

Note: Please include an interesting fact about the place which you have discovered.
