GRADE-V HOLIDAY HOMEWORK 2025-26

“To be ready for tomorrow’s opportunities, do your homework today.

Learn, refine your skills and focus on your growth.”

Dear Children,

It is time to make great memories with family and friends during this Summer Break. There is so much that you can do during your summer breaks. Read as many books as you can, lend a helping hand to your parents, visit grandparents, travel to new destinations, learn and explore new things, take up a new hobby or find time for an old one and of course go out and play games. We believe every day is a chance to learn even when we are on a holiday. We are giving you a variety of activities and assignments which you can do during the noon time. Do the assignments neatly and submit them to your teachers after the vacation. Wishing you all a very enjoyable and fun-packed summer break. **Best Wishes!**

“The greatness of a community is most accurately measured by the compassionate actions of its members.” — Coretta Scott King

A group of people who live, share and work together is known as a community. A community is maintained by members working together for its welfare. A single member cannot carry out all the work. So, its members form various clubs or societies to carry out different activities.

India has a large population, with different kinds of needs. It is difficult for the government to fulfil all of them. Therefore, some responsible, willing, motivated citizens set up some welfare organisations called NGO's, i.e. Non Government Organisations.

ART INTEGRATED ACTIVITY

Imagine you are in your village during the school vacation and you encounter the community facing a challenge like - lack of clean drinking water, limited access to education, no basic amenities in the school, etc.

You have joined hands with an NGO in the community, and how would you work with them and use their resources and expertise to help the community?

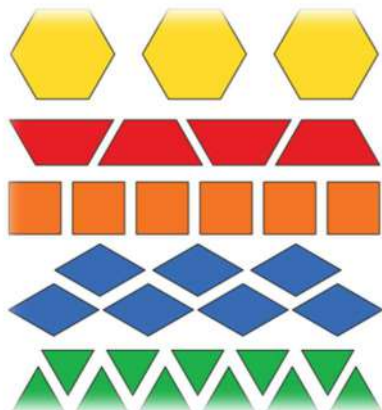

Create a comic strip featuring the *Helping Hands Squad!* In the form of a story.
