

ALUMNI INTERACTION SESSION

The school successfully conducted an alumni interaction session titled “Engineering Careers Transformed: How Tech is Rewriting the Future” on 23rd December 2025, aimed at exposing students to emerging interdisciplinary career pathways. The session brought together accomplished alumni from diverse academic backgrounds, highlighting how careers today extend beyond conventional boundaries and integrate technology, creativity, research, and innovation.

The alumni speakers included Ms. Shairley Reddy, a student of the University of Cincinnati, majoring in Operations Management with a minor in Real Estate, who shared insights into supply chain systems, research culture, and experiential learning through her internship at Fastenal and her roles as a teaching and research assistant. Ms. Sreevalli Bulusu, a Psychology major from Amity University, Noida, spoke about her impactful work with Tihar Jail, government hospitals, and juvenile centres, and her current role as a Research Assistant at AIIMS, Delhi. The session also featured Satya Swaroop, an alumna pursuing B.Tech in Biological Systems Engineering at Plaksha University, who elaborated on the evolving nature of engineering education and the shift from STEM to STEAM.

The session proved to be highly informative and inspiring for the students. The alumni encouraged them to think beyond conventional career choices, embrace interdisciplinary learning, and cultivate creativity alongside technical expertise. The interactive exchange provided valuable clarity and motivation, helping students make informed decisions about their academic and professional futures.
