2. **“NEWS”** - A Delightful Presentation by children of LKG & UKG to unite our minds through dances from North, East, West and South of our proud nation woven intricately with colour, music, rhythm and motion.

3. PANCHABHUTHA

The students of classes I-V present a visual treat through dance, music, colors, rhythm and motion on the theme PANCHABHUTHA or five elements of life. Continual change is the very nature of creation. The creator is the only unchanging eternal entity. The theme revolves around the Divine revealing the glories of universe “He” has created. The entire cosmic creation begins from the point of the PANCHABHUTHA i.e. Earth, Water, Fire, Air, and Ether. These elements contain the characteristics of creation, thus every individual has the distinct five faculties emanated from one particular element. This inimitable creation is the embodiment of perfection. Since it presides over destinies of all creatures, it’s our responsibility to safe guard it.
