

# TRANSPORT ISSUE UPDATES

AS ON

31<sup>st</sup> DEC 2016

Dear Parent,

The details of the meeting held yesterday with the drivers, parents and school management at **Asst Commissioner of Labour's office**, proved to be a **failure to reconcile** by the drivers. A meeting is further posted for **6<sup>th</sup> Jan 2017**. New action plan with your inputs and modalities will be communicated after the meeting AND Sankranthi vacation. Until then it was unanimously decided by the parents to continue with own transport arrangements. Your support and cooperation is solicited as before.

Request all parents to **not post irrelevant messages** in this group and **not to be misled by any false information**.

## HAPPY NEW YEAR

Representation from the parents to the hon'ble Labour Commissioner

No beating round the bush and elaborate deliberations. We will present the core issue and close the matter today. This is what exactly we want and we are here for:

"All of us, i.e. parents of 2850 students strongly believe and individually and collectively endorse the representation of the school (DDPORPS) to the labour commissioner. We unanimously and unconditionally support the school management and its chairman. We remind you that we have represented the same in our letter dated 10-12-2016 and in the daylong deliberations/discussions held on 28<sup>th</sup>."

We have come to a strong conclusion and are ready to put the same on any forum that "the driver's union along with its extraneous elements is responsible for the problems, dangers, threats and hardships of the students. Hence the permission to this union which is having "anti-social, extraneous elements" needs to be cancelled immediately at any cost."

There are threats to the children and others that have been intimidated through our letters and in our previous meeting. This is causing a lot of mental agony to parents.

We once again stress upon (reiterate) the fact that "the people under this union registered by your office would be responsible for any eventuality".

The onus of the responsibility also falls on the Labour commissioner and its officials for having registered such a union giving scope to "unlawful activities".

We hence request you to atleast now rightfully, without any delay cancel the registration of this union with dangerous elements failing which all the parents will be forced to approach legally against the registration, the safety and security of our children being at stake.
