Online adaptive Maths practice & learning tool

Mindspark is a computer-based, self adaptive-learning program that helps a child to improve his/her skills in Maths. It allows each student to follow a learning path that is based on their current level and at a pace they are comfortable with.

By explaining basic concepts and building strong fundamentals. Mindspark has a built-in adaptive logic that allows a student to proceed at his/her own pace, depending on their level of comfort in a particular concept. This helps in improving the confidence of the child when solving more challenging math problems.

This is 45 days program (pilot Program) conducting in our school by ASSET resources from 5th Oct 2015 and end on 30th Nov 2015 for classes 6, 7 and 8.

- Students can access this online tool using URL: http://www.mindspark.in/ with given login credentials, so that they can login from anywhere and practice exercise in the program.
- And also classes from 3rd to 10th can do practice using URL: http://www.aqad.in/ and win gift as per their terms and conditions.
