

GRADE – III & V FIELD TRIP - 1

PLACE: BIRLA PLANETARIUM

Date: Grade 3 : 16 July, 2026 (Thursday) , Grade 5 : 23 July, 2026 (Thursday)

Grade III & V Students Embark on an Inspiring Journey to Birla Planetarium

"Learning extends far beyond the four walls of a classroom, and every journey offers an opportunity to discover something extraordinary."

To foster scientific curiosity through experiential learning, the students of Grades III and V embarked on an enriching educational excursion to the Birla Planetarium on 16 July and 23 July 2026, respectively. The visit provided a unique opportunity for young learners to witness the marvels of science and astronomy in an engaging and interactive environment.

The highlight of the excursion was the captivating planetarium show, which transported students on a breathtaking voyage through the cosmos. They explored the fascinating world of planets, stars, constellations, galaxies, and the vast expanse of the universe, gaining a deeper understanding of our solar system and the significance of space exploration. The immersive visual experience sparked wonder and ignited their imagination.

Students also explored the planetarium's interactive science galleries, where hands-on exhibits and innovative models transformed complex scientific concepts into enjoyable learning experiences. The exhibits encouraged observation, inquiry, and critical thinking, reinforcing classroom learning through exploration.

An equally delightful part of the visit was the art gallery, which showcased an impressive collection of paintings, models, and creative displays inspired by science and space. The thoughtfully curated exhibits demonstrated the harmonious blend of art and scientific inquiry, enriching the students' appreciation for both disciplines.

Throughout the excursion, the students displayed exemplary discipline, enthusiasm, and a genuine eagerness to learn. Accompanied by their teachers, who ensured their safety and guided them throughout the visit, the learners made the most of this memorable educational experience.

The field trip proved to be an inspiring blend of knowledge, discovery, and enjoyment, leaving the students with a renewed sense of curiosity and a deeper fascination for the mysteries of the universe.
