

FIELD TRIP REPORT

EXPLORING OUR HERITAGE

Grade II Visits the Archaeological Museum

Date: Thursday, 16 July 2026

"Field trips are not just a break from routine—they are windows to the world, where learning comes to life beyond the classroom."

The Grade II students embarked on an enriching educational excursion to the Archaeological Museum at Public Garden, where history unfolded through fascinating artefacts and timeless treasures. The visit provided an excellent opportunity for young learners to connect classroom concepts with the rich cultural heritage of our nation.

The students were captivated by the museum's remarkable exhibits, beginning with the intriguing Egyptian mummy, which sparked immense curiosity and wonder. They also explored an impressive collection of bronze sculptures, ancient artefacts, Ajanta paintings, intricately carved stone sculptures,

inscriptions, and historical relics that offered valuable insights into India's glorious past and artistic traditions.

The museum visit encouraged the students to appreciate the significance of preserving historical monuments and artefacts for future generations. It fostered a sense of pride in the nation's cultural legacy while nurturing curiosity about the lives and achievements of people from bygone eras.

Following the educational tour, the children enjoyed lunch together and spent some joyful moments at the adjoining park, making the excursion both informative and enjoyable.

The field trip proved to be a memorable learning experience that deepened the students' understanding of history, inspired respect for our heritage, and reinforced the importance of conserving our invaluable cultural treasures.
