

WEEKLY LEARNING PLAN

CLASS: LKG

Week No: 24

Dates: November 7 to November 11 2016

Dear Parent,

BLOCK COMMENTARY

From the desk of LKG teachers:

We are going to tell you about the Early Programme lesson on *Land and Water Animals*.

In this lesson, students will learn about large sea animals like whale, shark and also about animals that live both on land and in water.

Students will sing rhymes and observe pictures to learn about the sea animals whale, shark and other animals that live both on land and water. They will talk about them using familiar words and also represent their ideas by drawing an underwater scene. Students will identify, name, show and write **number 7** through activities, manipulatives and number rhymes. They will compare lengths of two things using comparison words **long and short**. They will recognize the form and sound of letters 'Zz' and 'Vv' through stories. They will look at pictures and write the letter that they begin with.

Rather than exploring all the sea animals together, focus will be on students learning about some large sea animals and finally the animals that live both on land and in water.

At home, you can take your child to observe an aquarium or keep a fish as a pet to observe and learn more about them.

Fieldtrip: KIDIHOU on 10th November, 2016

Warm Regards
