

# WEEKLY LEARNING PLAN

CLASS: LKG

Week No: 25

Dates: November 14<sup>TH</sup> to November 18<sup>th</sup> 2016

Dear Parent,

## BLOCK COMMENTARY

From the desk of LKG teachers:

We are going to tell you about the Early Programme lesson on **The Green World of Plants**.

In this lesson, students will observe and identify the plants, trees, grass, and flowers that grow in a garden.

The students will listen to a story, go for a nature walk to the school garden and talk about what they observe, hear, and feel. They will give ideas to create their own class garden using things collected during the nature walk. The students will identify, name, show and write the number '8' through activities, manipulatives and number rhymes. They will also compare lengths of 2 things using comparison words - long and short. They will recognise the form and sound of letters "Ww" and "Yy" through stories, rhymes, and actions and match pictures with the letters that they begin with.

Rather than simply showing pictures of plants, flowers and naming them, the students will explore plants and flowers by going for a nature walk to the garden, reading stories and using illustrations.

At home you can provide opportunities for your child to observe the plants in a garden or help him/her grow a plant in a pot to learn more about it.

**HAPPY CHILDRENS' DAY**

Warm Regards

Class	LKG-A	LKG-B	LKG-C	LKG-D
Class Teacher	Ms.B.Usha	Ms.D.V.V.Padmavathi	Ms.P.Aruna	Ms.Ch.Aruna
