

# WEEKLY LEARNING PLAN

## CLASS: LKG

Week No: 30

Dates: 19<sup>th</sup> to 23<sup>th</sup> December'2016

Dear Parent,

### *BLOCK COMMENTARY*

*From the desk of LKG teachers*

*This week we are going to tell you about the Early Programme lesson on Shadows.*

*In this lesson, students will cast shadows inside and outside the class and observe the shadows of things around them.*

*The week will begin with students creating shadows by standing in front of a class wall and using torch light from behind to observe the shadows created by their body. Then, they will observe shadows outside in the sun. They will sing a song and listen to a story on shadows of animals and draw the same. Students will recognize 1 more than a number up to 9 and learn about the concept of more and less through activities and manipulative. They will review the letters 'Xx' and 'Qq' through stories, rhymes and actions.*

*Rather than simply listening or observing pictures, students will experience creating shadows using torch light with objects in class. They will also take a walk outside to observe their own shadows of other things around them.*

*At home, you can help by making the child guess what shadows they have made using their hands in torch light against a wall.*
