

CLASS- NURSERY

WEEKLY LEARNING PLAN

WEEK NO – 23

DATES: 31.10.16 to 04.11.16

BLOCK COMMENTRY

From the desk of Nursery teachers,

Dear Parent,

Here is the information about the early programme lesson on

TOUCH AND FEEL.

In this lesson, students will explore textures of different types of cloth to learn more about them.

Students will touch and feel the pieces of cloth and describe their texture. They will group the different pieces based on their texture and then give reasons for their sorting. They will also design clothes cut outs by decorating them. Students will also learn about the importance of taking care of our clothes by hand kerchief and socks in soapy water.

During maths time, students will learn to identify, show and trace number 2 using different activities.

During Language time, students will identify the letter and familiar words that begin with the letter 'M". they will form slanting line. They will also look at pictures in a book to see the different kinds of fabric and textures and talk about them.

Rather than simply identifying and tracing the number 2, students will sing rhymes, trace the number on sand paper, write the number in sand trays, draw to show the number -object relationship, make the number with play dough, paint the number on a drawing sheet and rainbow write the number.

At home, children can be asked to make sets of 2 things.

CLASS TEACHERS

NURSERY -A: P. PADMAVATHI

NURSERY- B: P. GEETHALAKSHI

CO – TEACHER: K. BHAGYA SREE
