

Ms Sangeetha from E-Dac Publications conducted a workshop for teachers of Classes I To VIII on 9th June in the school campus. She explained about the Pedagogy of E-Dac learning system.

She emphasized on the essence of engaging the learner to discover new things and apply the knowledge in real life situations. She discussed the various components of the books published by E-Dac which help the learner to discover things by delving deeper into the concepts.

It was an interesting session where in the resource person created an awareness among the teachers about how to use E-Dac books to make the minds of the students more receptive and learning – a joyful experience.
