

WORKSHOP ON LIFESKILLS

A workshop on Life Skills was conducted for the Class Teachers of Classes I to X by the organizers of Life Skills 360 Degrees on 10th June in the school auditorium.

The Director of 360 Degrees Ms. Sowjanya Suraj and the facilitator Ms. Rashmika gave an insight into the books and explained that they are designed to

guide the students in a structured way through Life Skills Classes to cope up with the challenges that they face at school, home and society.

They said that the book is designed to meet the holistic learning needs of

the students through various activities which impart skills like self esteem, planning for future, decision making etc. Students can connect with the characters in the books and they will be equipped with the required life skills. It was an interesting and thought provoking session.
