

IC3 CAREER AND COLLEGE COUNSELLING PROGRAM - 2025-26

Ms. Bhagyashree Kshirsagar and Ms. Sabita Balakrishnan were selected for the IC3 Institute's one-year Career and College Counselling Program for 2025-26. The program commenced with a residential week at Universal AI University, Karjat, Maharashtra (August 16 -22, 2025), followed by the IC3 Annual Conference and Expo at Jio Convention Centre, Mumbai.

The residential program explored meaningful career paths through education, highlighting the need for robust career counselling departments in educational institutions. Modules covered areas of study, academic courses, and leading career pathways, including academic, professional, and vocational pathways, as well as emerging careers in new fields.

We gained insight into integrating AI across subjects, creating new career opportunities. We also explored alternative career options beyond traditional choices, broadening our understanding of potential paths.

The IC3 Annual Conference & Expo promoted early access to career counselling, guiding young minds toward informed and rewarding career choices.
