

KIPS Learning Private Limited

A workshop was conducted by KIPS Learning Pvt. Ltd. for the school ICT teachers to fine-tune their existing knowledge of computer science. The session focused on Computational Thinking and Coding, covering topics such as *Play with Blocks*, *ScratchJr*, *Code.org*, and *AI World*.

The workshop provided an overview of coding concepts using simple English commands. It enabled teachers to understand how to create basic coding programs that can help students learn programming in an easy and enjoyable way during lab sessions.

It proved to be very informative and beneficial for all participating teachers. The workshop was held

Date: Saturday, 18th October 2025

Venue: Primary Wing ICT Computer Resource Lab

Resource person: Mr. Mrunal
