Tiny steps forward

The first day of Nursery is both exciting and frightening for students, parents, and the teacher too. There are mixed emotions everywhere, as this day marks a huge milestone in a child's life. As teachers, we incorporate ideas to help ease first-day jitters and start the school year off on the right track by making the transition from the secure home to an unknown school environment as smooth as possible.

The Nursery reopening at AMS P Obul Reddy Public School was a heartwarming affair. Children were thrilled to see Cocomelon characters welcoming them. Teachers decorated the classrooms and made the little ones feel special. Songs, dance sequences, and games were screened to help students begin the community-building process on day one itself. The activities helped them get acquainted with the school and classroom routines.
