

## Let's create our favourite shield , with the super power of CODING!

**“Everybody should learn to program a computer, because it teaches you to think.”**  
-Steve Jobs

Coding improves the aptitude ,logical thinking and problem solving technique in a child. Strongly believing in this, School organized a Coding workshop for the Classes IV to VI on 15<sup>th</sup> April and for VII to IX on 16<sup>th</sup> April, 2021 in collaboration with ‘StayQurious’ organization. This session is well attended by the students. They learnt the nuances of problem solving methods by using a simple coding technique. Mr Aanand Shankar,a well-known narrator, speaker and teacher connected well with the students and answered many of their queries. It was a fruitful session.
