

UNESCO ASPnet VIRTUAL EXCHANGE PROGRAMME: *Unity in Diversity*

Celebrating India's Cultural Plurality through Dialogue and Discovery

Reaffirming its commitment to intercultural understanding, inclusive education and global citizenship, **AMS P. Obul Reddy Public School** participated in the **UNESCO ASPnet Virtual Exchange Programme, *Unity in Diversity***, through a series of six interactive sessions conducted between **6 July and 11 August 2026**. Students from Grades VIII to XII represented Telangana, engaging in meaningful cultural exchanges with peers from different parts of India.

The programme provided a dynamic platform for students to explore the multifaceted dimensions of India's cultural identity through themes encompassing regional identities, languages, festivals, cuisine, heritage, art, music, dance and shared constitutional values. Through student-led presentations and collaborative discussions, participants showcased Telangana's distinctive cultural legacy while gaining insights into the traditions and lived experiences of other regions.

The sessions traversed a rich spectrum of themes, beginning with the exploration of diverse identities and progressing through India's linguistic traditions, festive celebrations and culinary heritage. Students presented iconic landmarks such as the Charminar, Golconda Fort, Ramappa Temple and the Thousand Pillar Temple, while highlighting the cultural significance of Bathukamma, Bonalu, traditional Telangana cuisine and the classical dance form of Perini Shivatandavam. These exchanges illuminated the intricate relationship between geography, history, artistic expression and collective identity.

The programme culminated in a reflective exploration of *Unity in Diversity*, underscoring the significance of inclusion, mutual respect, equality, responsible citizenship and a shared national identity. Students recognised that unity does not necessitate uniformity; rather, it flourishes when diverse cultures and identities coexist in an atmosphere of dignity, understanding and reciprocal respect.

Beyond cultural enrichment, the initiative strengthened students' communication, research, presentation, collaboration and interpersonal skills. It also demonstrated the transformative potential of digital platforms in facilitating meaningful intercultural dialogue and fostering connections beyond geographical boundaries.

Through this enriching UNESCO ASPnet initiative, the students gained a deeper appreciation of India's pluralistic heritage and the shared values that bind its people together. The experience reinforced the conviction that **celebrating**

diversity, embracing inclusion and cultivating mutual understanding are indispensable to building a harmonious, peaceful and united society.

STUDENT EXCHANGE PROGRAMME

Theme: “Mission AI 2045 – Designing Tomorrow Together”

A virtual Student Exchange Programme was organised on 25th August 2026 for the Grade V students of P. Obul Reddy

Public School and Surya -The Global School, on the theme “Mission AI 2045 – Designing Tomorrow Together.”

Under the guidance of the Principal madam, Headmistress Madam, the teachers trained and prepared the students for the various activities. The online session included engaging activities such as Robot Icebreaker, AI Detective Challenge, Robot Charades, Design Your Dream Robot, Robot Advertisement, Friendly Debate, Mission to Mars and Future Me.

The programme encouraged students to explore Artificial Intelligence through creativity, teamwork, communication and critical thinking. Students enthusiastically interacted with their peers from the partner school and enjoyed the activities immensely.

The session was an exciting, informative and memorable experience, inspiring students to imagine innovative ways in which AI can help people and make the future better. The programme concluded with reflection, a vote of thanks and a cheerful shoutout with a promise of meeting again.
