

WEBLINKS TO CHOOSE SUBJECT STREAM IN CLASS XI AND CAREER PLANNING

In today's time of so many career options making the Right Career Choice is not a very easy decision.

Generally the students are of these categories:

- Those who are absolutely confident of what they want to do in their life
- Those who know what their potential is, but have absolutely no idea about what to do with that potential.
- Then there are those who have absolutely no idea what subjects they should study or what course they should take up.

A few steps to choose a right stream of subjects and subsequently a right career:

- ✓ Know your strengths
- ✓ Robust Planning
- ✓ Be aware
- ✓ Know the trends and plan for the stable future
- ✓ Explore the options
- ✓ Talk to your seniors
- ✓ Visit university websites
- ✓ Acquire future skills
- ✓ Know the success stories of people i.e., Ted Talks, Videos etc..

Many new courses have been designed in the recent years and old courses have been revised and restructured. But this doesn't mean that traditional courses are not prevalent anymore and it is important that you know what is it that the course offers to you and how well it fits in the overall **CAREER PLAN**.

All in all, a career which offers you an opportunity to exploit your talents, individual growth, offers good salary to sustain and allows the scope to contribute to society as well is the RIGHT CAREER.

So, to ease your career planning to some extent, there are a few weblinks provided in the following page, which may navigate you through various career paths.

All the Best!!
