

DDMS P OBUL REDDY PUBLIC SCHOOL

WEBIFAIR - INDIAN UNIVERSITIES

A virtual University fair was organized on 6 November, specifically for the students of the school. The event began with Mr Ankur Vohra addressing the students virtually. The Webifair aimed to replicate an in-person school visit as closely as possible; where students had a wonderful opportunity to speak individually to the Representatives of 10 reputed universities across India. Universities such as Flame University, Mahindra University, Plaksha, Shiv Nadar University, Symbiosis School of Liberal Arts, etc were present in the event. They appraised students of the various courses available for the different streams such as humanities, sciences, and management.

Throughout the 1-hour event, the university representatives enlightened the students and parents about the admission test formats, selection criteria, scholarship details and other crucial aspects pertaining to admission procedures in these universities.

The Webifair also had power point presentations and videos that took the students on a virtual tour of their respective universities, giving exposure to the wonderful infrastructure and architectural beauty of these campuses. The university representatives also spoke about the facilities available in and nearby the university campuses.

The Webifair truly encouraged students to interact, ask questions and engage during these individual sessions taken up by each university to help students understand their admission procedure and eligibility criteria.

Students from Grade XI & XII attended the Webifair. It was a good opportunity for them to explore all options regarding their careers. All in all, the session was absolutely inspiring and enlightening.
