

DDMS POBUL REDDY PUBLIC SCHOOL

PUBLIC SPEAKING CLUB 2019-20

CLASSES – VI, VII & VIII

TERM -I

The success of your presentation will be judged not by the knowledge you send but by what the listener receives.

As an incharge teacher of Public Speaking Club I tried to bring out

their talent and sharpen it through different activities.....

Ms. Seema Sharma

In the month of June, students were introduced to the club and the purpose of transmitting information, telling a story, motivating people to act or encouraging people was discussed with the students. Students understood that a public speaker has three primary goals when delivering a speech:

- *To inform*
- *To convince*
- *To persuade his/her audience*

Also students expressed their views on the above.

The following activities were done by the students during this term:

In the month of June, Interview Introduction Activity was done. It s a great way to break the ice with a new group of people. This exercise has helped them find out about each other and then introducing the person they interviewed to the class.

In the month of July, Few activities were done, where, each student had to pick a chit from a bowl...which contained a general topic to speak upon. Everyone actively participated in the activity and their way of speaking on the given topic was judged upon and corrected. This activity helped them to avoid mistakes while speaking to the public.

Also the themes mentioned in the school diary were discussed and studens were given ideas to speak on these topics in different ways by being confident... like:

- *BREATHE DEEPLY, Relax before starting your speech.*
- *Keep you language simple as everyone should be able to understand it.*
- *Maintaining eye contact with everyone while speaking.*

In the month of August, Students enjoyed melodious Recitations by their fellow mates. Poetry Recitation is very important for children as it is a beautiful and effective way which facilitates the child to express. Poems make you feel alive and bring you close to life through your passion and vocal expression. This activity gave them immense happiness and satisfaction.

All the above activities helped the students to enhance their creative skills and develop fine speaking skills.

I look forward to teach them a few more interesting activities in the second term....
