

## Field Trip to I-Max to watch the movie, To The Arctic

Students of classes IV, V and VI were taken to I-Max theatre to watch an educational movie, To the Arctic on 15<sup>th</sup> July. To The Arctic reveals a compelling tale of survival of animals in the Arctic region. The documentary was based on the effect of melting ice caps on the Arctic wilderness.

The movie took the students to an unprecedented journey into the lives of a mother polar bear and her cubs, their struggle

to thrive in an environment of melting ice in the Arctic region. Students watched the movie with great interest and learnt about how Polar Regions affect the climate of the entire planet. They also learnt that global warming is damaging the Polar Regions and the effects of melting of ice on planet earth.

Students enjoyed the 3D effect of immense glaciers, spectacular waterfalls and majestic snowbound peaks. The field trip gave them an educational experience away from their regular school environment.
