

## DDMS P OBUL REDDY PUBLIC SCHOOL bestowed with an exalted visit of NASA Astronaut

DDMS P OBUL REDDY PUBLIC SCHOOL has been inviting eminent personalities to address students so that they get exposure to great thoughts and ideas.

In this connection we had the proud privilege to have Dr. Donald Thomas, An engineer and former NASA astronaut and Mr. Kayamboo Ramalingam, CEO, Go 4 Guru an online tutoring service amidst us, on the day the school celebrated teachers' day. While sharing his experiences with us, Dr. Donald A Thomas, spoke at length about,

how he tried several times to be selected to be an astronaut, failing at each time,

and how he

wouldn't give up but strive harder to perfect himself. He undertook the space mission 4 times and shared with the students the pictures taken in the space ship and on moon. He also was vocal while talking about the experiences in space ship, how they managed their food and cleaning up processes and how he they

survived against no gravity situation. The students interacted with the astronaut with lot of zeal and panache. They had trillions of queries to which he responded with great interest. The programme culminated with National Anthem

The school is honoured to have got this rare opportunity to host the event and interact with the astronaut from NASA
