

ONE NATION READING TOGETHER 2019-20

One Nation Reading Together was a step where children from schools across the country sat down to read a book of their choice on January 24, 2020. This was an initiative to foster the habit of reading in children which helps them to enhance their creativity, resourcefulness and knowledge. It was a collaborative effort of Scholastic India and the School. All the students took a pledge written by author Sampurna Chatterji to read many books and stay on edge. They showed a lot of enthusiasm and penned their views on their favourite authors and books on the graffiti wall posters that were put up.
