

TEACHERS DAY CELEBRATIONS

Teachers Day is celebrated on 5th September, in honour of Dr S Radhakrishnan, a

great teacher himself, who was born on this day. The contribution of teachers in a society is very important. Teachers go through training in order to train the minds of young children, but this is not to undermine the basic empathy a teacher must have in order to mentor children.

This year, the Teachers Day was celebrated in the Indoor sports stadium of the school. The school council presented a wonderful programme with the theme of "Retro". Senior Students presented a medley of old songs, sung melodiously to music. The head boy, Ansh bansal too joined in, to sing a few songs.

Junior grade students presented a group dance, grooving effortlessly to the music. The senior students presented a skit, set in the classroom. A Game of Musical Chairs was also arranged for teachers. There

was also a Ramp walk for teachers. Students organized the programme very well, and it was conducted seamlessly.

Overall , it was a memorable day for all teachers.
