

Acclaim by Reclaim – An Interaction with Partner School:

- 28th October, 2021

A group of students had an interactive session with the students of GGCMH School, Peshawar, Pakistan along with their Teacher Coordinator Ms. Hira Saleem.

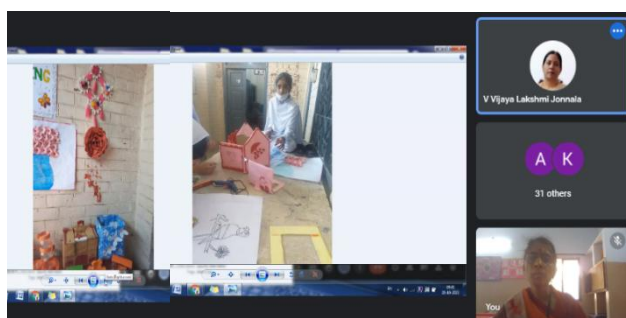

Students shared knowledge regarding various Waste Management strategies followed in their respective schools. There was lot of enthusiasm in the air and questions such as: “What are the activities done by students to manage waste? How do they create awareness on managing waste effectively? Do they have a technical team to help them with technical strategies?” were posed.

Our students responded with equal elan how they participated in conducting household waste management surveys, conducted Poster making competitions, created short films to spread awareness among other students.

The partner school students said that they recycled cardboard, paper and plastic waste to make useful and decorative items.

They shared the pictures which were presented in the morning class assembly.

It was an enriching experience for all the students and teachers who participated in the session.
