

DOCTORS' DAY CELEBRATIONS

PREPRIMARY {SPECIALASSEMBLY}Report

12th July 2022

'Doctors' Day', celebrated on 1st July in India, is a special day that is commemorated worldwide in different countries on various dates. The man who inspired the creation of the national version of Doctors' Day in India was Dr. Bidhan Chandra Roy who was one of India's most well-known and respected doctors. Every year, on 1st July, the life and achievements of this incredible man is celebrated, and millions of health care workers, patients and medical organizations are honoured.

Children of UPPERKINDERGARTEN gathered at a special assembly to celebrate this event. The kids enacted as doctor, recited a rhyme and even spoke about healthy food and junk food. They enjoyed participating in the assembly and understood the importance of doctors in everybody's life.
