

LEARNING FROM ALL AROUND

The dynamics of modern education system believes in providing learners with learning opportunities out of the confinements of a conventional classroom. Educationists are now facilitators, guiding the process of learning from multiple sources. Therefore, field trips are regularly conducted to make learning more effective.

Students of Class 8 along with their Class Teachers and PE teacher went on a field trip to The Telangana State Archaeology Museum on 21st October, 2022.

It is the oldest museum in the city of Hyderabad, located at Public Gardens, Hyderabad. A result of the last Nizam's efforts to preserve the rich history and heritage of the state and country, it was setup during the British Rule. The Museum consists of various ancient artefacts which were excavated in the 1940s.

There are many galleries in the Museum, each presenting captivating collections. From stone sculptures to modern paintings to bronze works to manuscripts to different kinds of textiles, the Telangana State Archaeology Museum displays a variety of items of historical interest. The Museum also boasts of unique collections, such as the imitations of Ajanta Paintings, and is

the only museum in the country to possess these. There is also a gallery of bronze artefacts, armour, stone sculptures, manuscripts, modern paintings, textiles, etc. In addition, the Museum also houses a separate gallery of Buddhist sculptures as well. Adjoining the museum is the beautiful and well-maintained Public Garden. Children had a good time playing in the garden after their lunch there.

It was an insightful and happy experience for all the students.
