

DDMS(AMS) P. OBUL REDDY PUBLIC SCHOOL

CLASS IX – FIELD TRIP REPORT

The Class IX students of the school went on an educational trip to National Academy of Agricultural Research Management (NAARM) on the 27th of October 2022.

The university is in Rajendranagar, Hyderabad. The students were taken to the herbal garden, an aquarium, a plant nursery, agro- biodiversity park and a gallery in the huge 50-acre research campus. A brief orientation on how to build capacity in agricultural research was very informative and intriguing for the students.

It was a reverie to be walking through the tidy and eco-friendly campus. Lunch, made of organic vegetables grown in the campus, was served to the students. The tour, for sure, has left the students to contemplate agriculture as a main course of study to pursue.
