

DESIGN WORKSHOP IN SCHOOL

United world Institute of Design conducted a design workshop in association with DDMS P.Obul Reddy Public School on 22 December 2023 in the school premises. Noted Designer, Prof. G. A. Vikram conducted a Hands-On Design Workshop in Industrial Designing and Fashion Designing. He addressed the students about the latest trends in the design world and discussed how innovation plays a

crucial role in shaping the future of design. He further apprised them of the importance of design in modern society, its applications in various fields, and its impact on user experiences. The workshop covered Design Fundamentals, Design Trends and Innovation. The professor engaged students in interactive design activities to apply the concepts they've learned and encourage creativity in problem-solving which was followed by portfolio Review and feedback, offering them the opportunity to showcase their work and receive constructive feedback. The students were able to understand the significance of design in various aspects of life and business. Thus, gaining a strong foundation in design principles and elements. It enhanced the creativity and critical thinking skills and helped acquire practical knowledge of design tools and software. Students were appreciated their amazing creative designs
