

## TELUGU VAAROTSAVAALU

Our school strongly believes in developing communication skills among learners not just in English but in other language as well. In the process, Children learn to appreciate and respect languages other than English and their mother tongue.

Every year we celebrate Telugu week in September or October months. As part of this, our school celebrated the Telugu week from 31 October to 5 November 2022. Activities included special assemblies for each class throughout the week. The main aim of these assemblies was to spread the importance of Telugu language and to make students understand their role in contributing to the language. The jateeyalu, samethalu, padhyalu, and kavithalu which brought pride to Telugu were shared in assemblies.

Also, there were various competitions conducted for the students to promote Telugu language, which saw active participation. The main agenda to improve language skills in students was fulfilled with the collective effort of teachers and students.
