

CHILDREN'S DAY

Children's Day is amongst the most coveted events of the school both for the students and teachers. While the students wait for the surprises that await them on the day, the teachers too find it an occasion to give in their best to express their love for children.

This year, the Children's Day celebrations came as a respite from the two year Pandemic conditions. On 14 November 2022, teachers adorned the role of the students. The events of the day began with a team of teaching staff presenting a meticulously planned assembly. The monotony of a regular assembly was broken with some elements of humour while delivering the news, thought etc. Another team of teachers rendered a foot tapping song that mesmerized the students. This was followed by a short skit by the teachers of senior secondary that left the students roaring with laughter. Mr Shivaraj, Dance Teacher enthralled the audience with his solo dance performance which kept the aura of the traditional dance form

alive while entertaining the students to a contemporary rhythm. The event concluded with a dance by a few teachers and the aerobic trainers to some popular film songs. During the course of the rest of the day, students played games like basketball and volley ball with their teachers. The short programme left a deep impact on the students for them to cherish a long time and celebrate being a child.
