Objectives of the session:

- * To help students understand the importance to be focused on goal.
- * To identify what commonly distracts you and take steps to minimize these interruptions.
- * To implement methods such as the Pomodoro Technique, which involves working in short, focused intervals with breaks in between, to maintain productivity.
- * To focus on high-priority tasks that directly contribute to our goal.

By implementing these strategies, we can improve our ability to stay focused and effectively work towards achieving our goals.
