

WORKSHOP ON CAREERS IN BIOSCIENCES

On 29th August 2025, the students of Classes XI and XII (BiPC) had the unique opportunity to attend an enlightening workshop conducted by Professor. Jeremy Simpson, Dean of the School of Science, University College Dublin, Ireland. The session was organized in collaboration with i20 Global Education, with the presence of Mr. Shankar, Ms. Teema Banerjee, and Mr. Srinivas of i20 and the Vice Principal Ms P. Deepika.

Professor Simpson, an internationally renowned cell biologist with over two decades of experience across leading institutes in the UK, USA, and Germany, captivated the students with his engaging talk. He shared fascinating insights from the world of biology, including the story of the “jellyfish” and an intriguing experiment on DNA, and current developments in Life Sciences research.

Beyond science, Professor Simpson spoke about emerging careers in Biosciences beyond traditional paths, encouraging students to explore diverse and innovative opportunities in research, healthcare, biotechnology, and sustainability. His address was both interactive and inspiring, leaving the students motivated to dream big and think differently.

Adding a personal touch, Ms. Tiana Banerjee shared her own journey, offering students valuable life lessons on perseverance and passion in building a meaningful career.

The session concluded with a Vote of Thanks.
