

## NO-BAG DAY CELEBRATION - PRIMARY

In alignment with the National Education Policy's emphasis on experiential learning, our school organised a vibrant **No-Bag Day** on 18<sup>th</sup> and 22<sup>nd</sup> **August 2025**, creating a refreshing break from routine and fostering joyful learning where students come together to learn beyond textbooks.

At AMS P. OBUL REDDY PUBLIC SCHOOL, activities are thoughtfully planned to ensure that every child participates with keen interest, making learning joyful, engaging, and memorable.

The main objective is to relieve students from the physical burden of school bags, encourage hands-on learning and creativity and to promote holistic development through non-academic activities.

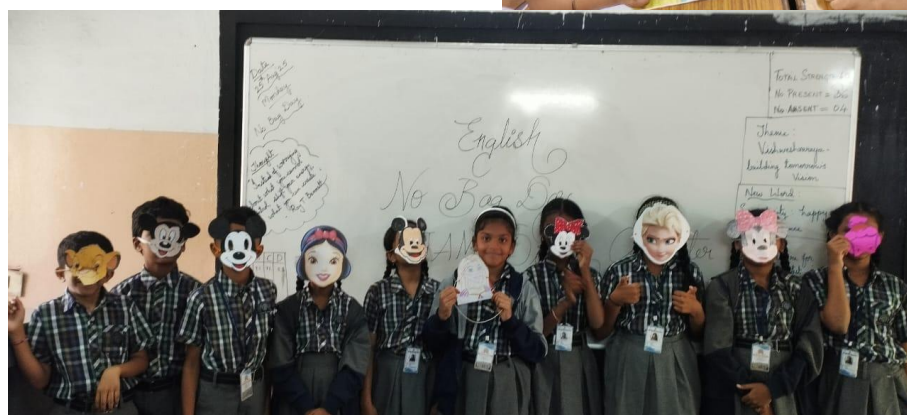

A variety of engaging and educational activities like drama, poster making on nurturing plants, model making of land farms, one-minute talk on the importance of Family and biodiversity, making of friendship bands, fun and tricky math puzzles and storytelling were planned.

The day was filled with laughter, learning, and discovery, without a single textbook in sight was the highlight.

Many students expressed how the day helped them learn in new ways and the absence of bags symbolised a lighter, freer approach to education.

Overall, the No-Bag Day was a resounding success, reinforcing the idea that learning goes far beyond textbooks. It encouraged students to explore, express, and engage—making education a truly enriching experience.
