

AMS.P.OBUL REDDY PUBLIC SCHOOL

Rocksport and One Day Weaver

An adventure and an experiential learning trip for Class 4 students.

On 18th October AMS.P.Obul Reddy Public school organized an educational tour to Rocksport and One Dy Weaver,

offering students an

excellent

opportunity to learn

outside the

classroom environment. A group of 75 students from class 4

participated in the tour, accompanied by 7 teachers and 2

sub staff members. The main objective of this tour was to

provide practical exposure to the topics they study and to foster a spirit of exploration and teamwork among students.

The students were excited and eager to explore from the site.

The activities done by students with hands-on learning , enabled

to enrich real life experience. Children were exposed to

multiple elements of adventure and outdoor activities like zip lining, crossing Burma bridge,

climbing commando net etc, in a safe and controlled environment.

Bonfire was arranged in the night.

Children enjoyed a lot and had

great fun by singing and dancing. The tour provided a perfect blend of learning and fun, offering students the opportunity in gaining practical knowledge beyond the classroom.

Children visited One Day Weaver and were able to know the steps involved in weaving a cloth, particularly fascinated by moving the charka, doing block

printing on a cloth. They had hands on experience providing students with holistic learning experiences. Students not only gained valuable

insights into but they also developed a deeper appreciation for the importance of experiential learning , incredibly enriching in terms of teamwork, discipline, and personal

growth. I believe such trips should be a regular part of our curriculum, as they combine learning with fun and leave us with memories to cherish forever.
