

LKG - BLOCK COMMENTARY

Week no: 28

Block : 16

Dates : 4/11/19 –8/11/19

From the Desk of LKG Teachers:

We are going to tell you about the Early Programme lesson on **Magical World Underwater**.

In this lesson students will learn about the underwater world and some common sea animals that live there.

Students will first look at picture word cards of different sea animals and communicate what they see using familiar words. They will sing a rhyme to learn about underwater sea animals. They will learn about the special features of a fish that help in survive underwater.

During language time, Students will recognise the form and sound of the letter '**Zz**' and '**Vv**' through stories, rhymes and actions.

During Math time, Students will recognise, name, show, trace and write the number '**7**'. They will also name, count and show a collection of 1-7 items using counters and blocks.

Rather than just learning about numbers and their value through rote and memorization, students learn through actions, rhymes, manipulatives such as beads, blocks and playing games like hopscotch and dice games.

At home, you can encourage your child to count the number of things they use at home in their everyday lives, like spoons and bowls while having dinner on their toys and books.

Words we learn:

- 1.Sea weed
- 2.Sea horse
- 3.Coral
- 4.Eels
- 5.Gills
- 6.Fins
- 7.Scales
- 8.Sting ray
- 9.Jelly fish
- 10.Breathe
- 11.Under water
- 12.live
