

BLOCK COMMENTARY

WEEK NO: 32

Date: 2-12-2019 TO 13-12-2019

BLOCK NO: 20

CLASS: LKG

From the Desk of the Lkg Teachers

Dear Parent,

We are going to tell you about the Early Programme lesson on Sun, Moon, and Stars.

In this lesson, Students will observe things that are seen in the day and night sky. Their observations will lead them into discussions of comparisons between day and night.

Students will learn about day and night through rhymes and songs. They will observe the day and night sky, talk about their observations and draw pictures of the same. They will engage in pretend play to imitate daytime and night-time activities using objects and manipulates. They will also learn about the concept of more and less using objects. Students will review the forms and sounds of the letters "Xx and Qq" through stories, rhymes, actions and also write these letters. Students will practice to write alphabet in sequence.

Rather than simply learning about the topic through rote and memorisation, students will learn by observing the day and night sky and comparing the daytime and night-time activities that we do.

At home, you can help your child observe pictures of the different constellations seen in the night sky or take him/her to visit a planetarium.

EVENT: SPORTS DAY

FROM:

CLASSES	NAME OF THE TEACHERS
LKG-A	Ms.Ch. Aruna & Ms.Soujanya
LKG-B	Ms.B.Swathi & Ms. N.Swathi
LKG-C	Ms.P.Padmavathi & Ms.Ch.Rukmani
LKG-D	Ms.P.Geethalakshmi & Ms. B.Radhika
LKG-E	Ms.K.Lakshmi kumari & Ms. Praveen

Words we learn:

day dark
sun queen
sky stars
daytime
sunflower
night
moon
