

BLOCK COMMENTARY

Class:UKG

Week No. : 18

Block - 10

Dates: 26.08.2019 - 30.08.2019

From the desk of UKG Teachers:

We are going to tell you about the Early Programme Lesson on "Community Helpers".

In this lesson, students will understand that people work to keep us safe and we share responsibilities to help them do their work well.

They will look at different tools used to do different jobs, followed by singing rhymes, watching role-play, engaging in pretend play, and asking questions. Students will draw what they want to be when they grow up and what they can do to share responsibilities.

During Maths time, students will learn to read write and show numbers 11 and 12 by making bundles of 10 and counting extras and also they will learn to identify read and write 'No. names'.

During Language time, students will name picture cards and then break up words into sounds, as well as put together sounds of letters to make the word. Students will then identify words that sound the same and also they will learn to write 'o' sound words.

Rather than the teacher asking questions, students will ask questions to solve a problem. They can also put up questions to a guest visitor.

At home, give your child a picture and encourage him/her to ask questions about it, beginning with the words - 'what', 'who', 'where', 'why' and 'how'.

It would be great if you can model asking questions using the words - 'what', 'who', 'where', 'why' and 'how'.
