Overview:

Page successfully hosted a certification workshop ‘**knowledge sharing workshop**’, a workshop for **Science and Mathematics** teachers on December 20, at Page junior college, Hyderabad. As a part of this landmark event, a session on Behavioural issues and bringing science to life in the classroom was conducted successfully.

Objectives of the workshop

- To introduce educators to the evolving role of Artificial intelligence in teaching and learning.’ **Bring science to life in your classroom.’**
- To encourage interdisciplinary and innovative approaches to education.
- To foster dialogue on ethical,inclusive and effective use of AI in academics.

Workshop Highlights

- Managing challenging behaviours and practical strategies for Indian classrooms.
- Types of challenging behaviours in students like emotional issues, lack of engagement, unclear expectations.
- Demonstration and discussions on how AI can enhance teaching and learning effectiveness,student engagement and assessment practices.
- Insightful exchanges on balancing technology with human-centered pedagogy.

Outcomes

- Participants gained a clear understanding of integrating AI tools into teaching practices.
- The workshop reinforced the importance of interdisciplinary thinking in education.
- Attendees received a certificate of participation,acknowledging their engagement and learning.
