

WORKSHOP CONDUCTED BY HYDERABAD INSTITUTE OF TECHNOLOGY AND MANAGEMENT (HITAM)

On 13th March 2025, the Hyderabad Institute of Technology and Management (HITAM) conducted an insightful workshop highlighting its Integrated Twinning Program, aimed at offering students a seamless pathway to pursue a Master's degree abroad.

The session introduced the 3+1+1 model, structured as follows:

- 3 years of B.Tech study at HITAM
- 1 year at a partner university abroad to complete the UG degree
- 1 additional year for the Master's program at the same or another partner university

This innovative program enables students to graduate with a B.Tech degree from JNTUH and an MS degree from a reputed international university.

Key Advantages Discussed:

Exposure to international education and culture

Eligibility for 3 years OPT in the USA after MS

Industry-relevant curriculum tailored for global needs

Strong placement support and scholarship opportunities

Saves both time and cost for higher studies

The workshop was interactive, and participants had the opportunity to engage with program coordinators and clarify their queries.
